PLD POLICY 2110

Library Director Contreras presented a review on the current options as presented by the Special District Risk Management Authority (SDRMA) in order to comply with the current ancillary coverage contract. The options included paying 100% of the premium for all regular part-time employees beginning July 1, 2010, or discontinuing ancillary coverage for regular parttime employees, beginning March 1, 2010. Options for future ancillary coverage discussed were: Placentia Library District pay 100% coverage for regular part-time employees, beginning July 1, 2010, to comply with the District's current contract with SDRMA and the Library Director to present formal proposals from other carriers for the Library Board of Trustees to consider at a future meeting; and/or Placentia Library District discontinue dental, vision, long-term accidental death and dismemberment coverage for regular part-time employees, beginning March 1, 2010 and the Library Director to present formal proposals for medical and welfare benefits from other carriers for the Library Board of Trustees to consider at a future meeting; and/or increase the dental insurance reimbursement for all employee's portion for "major" procedures from 50% to 75% for the period of March 1, 2010 - July 1, 2010 (Policy 2110.1.3.2). Review and questioning of particular coverage terms and how they would affect all employees was conducted, including the issue that the current policy does not allow for open enrollment for all coverages including dental. It was moved by President Shkoler and seconded by Trustee Turner to authorize the President of the Board and Library Director to teleconference and confer with SDRMA to negotiate that all eligible employees can be added for all ancillary coverage, that Placentia Library District will comply with the 100% premium coverage beginning July, 2010, and, if no agreement is reached, the District would continue the contract for the remainder of the fiscal year and possibly seek another carrier. BACKGROUND

On February 2, 2010 the annual fire alarm system testing was conducted. After testing 75% of the smoke detectors, the technician indicated that all of the older type smoke detectors did not respond. The newer type smoke detectors were responsive. As a requirement for the annual Fire and Life Safety Inspection with the Orange County Fire Authority we are required to provide recent documentation of service and conditions of the fire alarm system. This year's annual inspection is pending due to the conditions of the current fire alarm system.

Due to the age of the fire panel and the smoke detectors an upgrade is considered necessary. Management would like to request the Board of Trustees to review and award a contract to a vendor in order to replace the fire alarm system.

Video Surveillance and Digital Recording, Electronic Access Control, Fire and Life Safety and Intrusion Detection are some of the technology solutions that many of today's companies need if they are going to help reduce the changing risks they face.

Part of our job at ADT is to help you recognize areas of risks for your business and provide security offerings which can help protect your employees, your assets and yourself. Whether you are concerned about risk management, business operational management or loss prevention, this information should help you understand some of the products and services available and what solutions can work best for your company.

Ownership

ADT makes it affordable to install the right system. Choosing security for your business at a price you can afford can be challenging. With so many different companies offering so many choices, it can be hard to tell the difference between the best value and the faster, cheaper one. Too often, security and peace of mind are compromised for affordability, and the result can be inadequate protection. ADT can help.
